JOVASI TECHNOLOGY LIMITED
CYBER CERTIFICATIONS

Cyber certifications are a great way to provide assurance that your organisation has put into place a range of important **cyber security**, privacy and **data protection** measures. Jovasi Technology is an NCSC **Assured Service Provider**, an authorised **certification body** for IASME & Cyber Essentials, and can assist your organisation to achieve others. Our assessors are certified by the IASME Consortium, have undergone **GCHQ based training** and hold UK SC clearance.

Cyber Essentials

Cyber Essentials	Cyber Essentials Plus
☑ Self-assessment	☑ Vulnerability scans
☑ £20m cyber insurance	☑ Anti-malware tests
☑ Blockmark certificate	☑ 2FA testing
From £300 +VAT	**From £1,995 +VAT**

Cyber Essentials is a UK Government supported scheme, run by the National Cyber Security Centre (NCSC) to help organisations prepare and protect themselves against possible cyber attacks. The scheme concentrates on five fundamental areas that organisations should have in place such as firewalls, users and malware protection.

IASME Cyber Assurance

The IASME Cyber Assurance standard is a comprehensive, flexible and affordable cyber security standard. It provides assurance that an organisation has put into place a range of important cyber security, privacy and data protection measures. The IASME Cyber Assurance certification also includes GDPR requirements.

Cyber Assurance Level 1	Cyber Assurance Level 2
☑ Self-assessment	☑ Remote/onsite audit
☑ Maps to ISO27001/NIS	☑ Detailed reporting
☑ Blockmark certificate	
From £300 +VAT	**From £2,195 +VAT**

IoT Cyber Baseline/Assurance

Cyber Baseline / Assurance Level 1	Cyber Baseline / Assurance Level 2
☑ Self-assessment	☑ Hands-on device audit
☑ Independent review	☑ Documentation review
☑ Maps to ETSI EN 303645	
From £450 +VAT	**From £2,000 +VAT**

The IoT Cyber scheme allows vendors to improve the security of their IoT devices and be compliant with security best-practice and UK law. Cyber Baseline is compliant with the top 3 requirements of the ETSI EN 303 645 standard and the new Product Security and Telecommunications Infrastructure Act 2022. Cyber Assurance covers all 13 requirements of the ETSI EN 303645 and the IoTSF's Security Compliance Framework.
